WORK EXPERIENCE

DApp Developer

BSC GAMES

MARCH 2021

Remote

- Collaborated with the team to discuss the project in details
- Worked closely with the smart contract developer to test the contract at regular intervals from start to finish of the development phase
- Developed interactive and user-friendly DApp as a subdomain to match the looks and feels of existing centralized aspect of the web app
- Integrated wallet connection functionality to the DApp putting into consideration events, such as account change and network change and reacting to each accordingly
- Integrated the smart contract, calling the contract's function to read data from the smart contract, sending transaction and listening to blockchain events
